Leon A. Frechette : Remodeling a Bathroom (Taunton's Build Like a Pro) before purchasing it in order to gage whether or not it would be worth my time, and all praised Remodeling a Bathroom (Taunton's Build Like a Pro):

Neither of us had any real knowledge of plumbing, electrical, carpentry, tiling, etc. This guide gives you step by step instructions and even lists some name brand products to use. It even lists what types of screws to use when installing drywall and cement board, etc. We did use a professional electrician and plumber (combined cost of \$800) but if you are somewhat familiar with doing this yourself, the instructions are there. I have only found one or two things this book could not answer for me. (And those I had a hard time finding searching the internet. So I questioned the electrician and the plumber and got an idea of what I needed to be done.) I would highly recommend this book. Next we are doing the kitchen and I will purchase Taunton's book on Kitchen Remodeling.1 of 1 people found the following review helpful. Well written but needs an updateBy SpockyI read great

reviews on this book. I agree to a certain extent. Detailed instructions, pro tips, step by step planning and thorough information. However bathroom design and ideas have come on in leaps and bounds. The bathroom ideas and styling is very outdated. This is 1990's style at best. I doubt many people would want to be getting any styling ideas from this book. Great for learning the skills as readers of the "Build like a pro" series would know. I have many myself. Nothing modern or dynamic here. Showers have moved way past these old ideas. Somewhat disappointing in my mind. Surprised how old the ideas are. 0 of 0 people found the following review helpful. Love these books By Emma Great book for help remodeling a bathroom. The reader is guided through designing a floor plan; framing walls; roughing in the plumbing and electric supply; installing drywall, flooring, cabinets and countertops, tub and shower enclosures, and moldings; and more.
