I really feel comfortable tackling a few of my household projects I have put off for months. Chair joints are loose, reupholstery on some of my furniture, and other basic household repairs. Glad to have this book in my library.0 of 0 people found the following review helpful. Excellent resource for us home handy peopleBy Ann de VriesI agree with the description of the initial reviewer - an easy to follow guide to repairing furniture. Why he gave it only two stars I cannot understand: I'm giving it a four. Even if you purchase other books on the subject, this is a must have. I've had my series of Time Life books for many years, and all are clear with

excellent directions and illustrations. (review by Dirk de Vries)
