Feng Guomei : Rhododendrons of China (407 color photos) before purchasing it in order to gage whether or not it would be worth my time, and all praised Rhododendrons of China (407 color photos):

Second of three volumes, this book is about the Chinese rhododendrons in their natural habitat and covers 118 species, varieties and sub-species. Features include authoritative botanical descriptions with illustrative photographs and maps, and practical notes about the habitat.
