to you!0 of 1 people found the following review helpful. Well-reasoned and well-writtenBy bigcuzHaving read some of the things Skip has written over the last few years I was hardly surprised when his book turned out to be easily read and cogently written, but it is always nice when good expectations are upheld.0 of 1 people found the following review helpful. 2A: The right of the people to keep and bear arms shall not be infringed.By KrkrjkSkip Coryell has several books that I have enjoyed, most of them fiction but this one was non-fiction and was equally well written and informative. Looking forward to more publications by this author.

Columbine and Virginia Tech were not good omens. The victims there were unarmed sheep, who hid beneath desks and chairs, simply cowering as they died. They said "Baa" as they were being slaughtered. Something basic to our society has to change. It's time to stand and fight while we still can. And if our politicians tell us we can't protect our children in a daycare center, a post office, or a church, then we show them the door. We vote them out. We recall them. We take out the trash! That's the attitude that America was founded on. Somewhere along the timeline, America has lost it's way, we've lost our instinct for survival; it's no longer "fight or flight"; it's just plain "cover and die"!

It is said that gun control and abortion are the two most polarized ideological disputes in the US. Perhaps you re against guns, or perhaps like me you ve carried one as a cop and/or an armed citizen your entire adult life. Either way, you ll understand some of what drives this complex debate after reading Skip Coryell s essay collection, RKBA. -- Massad Ayoob Founder, Lethal Force Institute Author of In the Gravest ExtremeSkip Coryell s new book RKBA: Defending the Right to Keep and Bear Arms should be on the shelf of every American gun owner. Skip s writing style will draw you in, make you feel at ease, and keep you entertained from cover to cover. His years of experience, advocacy and dedication shine through on every page and I especially was impressed with his considerate and thoughtful treatment of open carry which is a topic that is near and dear to me personally. --John Pierce Co-founder opencarry.orgInsight, experience and passion are not easy to convey...especially via simple black text on a stark white page.
