I like it. 2 of 2 people found the following review helpful. Great ideas, beautiful photos.... By blueviolin What beautiful photos and illustrations! There are many unusual ideas... saunas and studios as well as pool houses. I have a vivid imagination, so I had no trouble envisioning a lower budget version of these ideas. I think the visions are inspiring and can be adapted to fit your budget with a little ingenuity. If you don't have the space for 1000 square foot structure, adapt to 500 square feet! The pictures alone are worth the purchase of this book. Of particular interest to me was the music room... perfect for an artistic retreat! 0 of 0 people found the following review helpful. Doesn't match book title. By D. Vaughn Doesn't match book title- the content contains more house attached rooms than the title suggests. Photographs depict more of a sun room- garden room book than that of "Rooms Outside" Photographs lacked compelling material as title suggests.

Rooms Outside the House presents an innovative range of building types for rooms and freestanding structures that

will extend the living space of your home. Building structures beyond the walls of your home can be an inexpensive yet creative way to expand and enhance your living space. *Rooms Outside the House* presents a broad range of projects encompassing a variety of purposes such as pool houses and saunas, dining and entertaining rooms, and even freestanding private libraries, all built to blend into your home's garden space. Featuring the work of top architects such as Bolin Cwynski, Miro Rivera Architects, Hanranhan and Meyers, Frank Harmond, and more, *Rooms Outside the House* provides beautiful full-color photography and detailed architectural plans that are sure to inspire new ways of thinking about your home and garden space.
