Beautiful PicturesBy Narcissus de la Pena#34Derry Moore is fantastic and on top of his game in this book as well as another book published in 2009 of his magical photographs "In House." However I question Rizzoli's editors when thy sat down to lay out these beautiful pictures and covers of both these books. The inconsistency in it's layout of the photographs and the size of the writings within the framework of the book. Neither the covers do justice to these lovely photographs and an eye into the world of interior designs.0 of 0 people found the following review helpful. This is real eye candy!By DobegirlIf you love esoteric interiors, you will be totally mesmerized and will get lost in this book! It's absolutely fascinating and the pictures are amazing. The descriptions are wonderful as well. Perfect in every way!0 of 0 people found the following review helpful. Five StarsBy Carla S AlexanderLoved every minute of it!

Rooms celebrates some of the most luxurious and bold interiors around the globe and the creative sensibilities of the people who inspired them. Beautifully presented through the sumptuous photography of Derry Moore, the 12th Earl of Drogheda, who has photographed some of the world's most spectacular houses as well as some of the most notable

personalities in their homes, this lavish publication captures the dramatic spirit of such vivid figures as famed early twentieth-century interior designer Elsie de Wolfe, contemporary design legend Renzo Mongiardino, and the legendary decorator Nancy Lancaster. Moore revolutionized interior photography with his technical acuity, his keen aesthetic eye and his impeccably good taste. This vision culminated in an inspired collaboration with Joseph Holtzman, founding editor in chief and art director of the celebrated and controversial magazine *Nest*, and one of the great tastemakers of our age. This long-awaited book features a remarkable array of spectacular interiors, ranging from Charleston, the famed haunt of the Bloomsbury group, to India's Falaknuma Palace, Pauline de Rothschild's London residence, and Chatsworth Hall, Derbyshire, the grandest of English country houses.

*Rooms* is without a doubt the most eccentric decor book I've ever come across. I simply could not leave the store without it. ~styleNorthFor sheer visual indulgence, drink in Joseph Holtzman, Carl Skoggard, and Derry Moore's *Room* (Rizzoli, \$55), which included everything from Madeleine Castaing's Parisian digs to an Irish pile of mesmerizing decay. ~Home GardenOne of the oddest books to come down the pike is *Rooms* (Rizzoli, \$55), which collects the photography of Derry Moore and includes text by former *Nest* writer Carl Skoggard. Moore, also known as the 12th Earl of Drogheda, has been shooting interiors for more than 30 years, frequently for *Architectural Digest*. This book captures his fellow aristocrats in their frescoed, treasure-stuffed palaces, villas and chateaus around the globe. If you have friends or loved ones with a more-is-more take on decorating, this is the book for them. ~The Philadelphia Inquirer About the AuthorDerry Moore has published his photographs in numerous books, including *Inside the House of Lords* and *The Gardens of Queen Elizabeth, the Queen Mother*. He lives in London. Joseph Holtzman is the founding editor in chief and art director of the influential design magazine *Nest*. He lives in New York City. Carl Skoggard, most recently the staff writer for *Nest*, lives in New York City.
