Liz Klose, Laura Peters : Roses for Ontario before purchasing it in order to gage whether or not it would be worth my time, and all praised Roses for Ontario:

This book is a practical and beautifully photographed guide to 144 varieties of roses recommended for growing in Ontario. Liz Klose, of the prestigious Niagara Parks School of Horticulture, has joined with garden writer Laura Peters

to craft a common-sense resource that covers the most important information about each of the recommended varieties. Enjoy the more than 300 full-colour photographs as you read where to plant roses, which roses will do best in your garden, how to purchase, plant and care for different kinds of roses, how to protect rose plants over the winter and how to identify and treat various pests and diseases that can attack the plants. The book is divided into nine sections: species, hybrid tea, floribunda, grandiflora, old garden, climber and rambler, miniature, groundcover and shrub.

About the Author LIZ KLOSE is superintendent of the Niagara Parks School of Horticulture, where she has taught since 1991. Liz also is curator of the Rose Garden, the Herb Garden and the Vegetable Garden at the Niagara Parks Botanical Gardens. A graduate of the University of Guelph with a Bachelor of Science (Honours Agriculture), Liz Klose has worked in horticulture, agriculture, public relations and the wine industry. Liz is a frequent speaker to garden clubs, plant societies, conferences and schools. She is often called in as an expert guest on television gardening programs. LAURA PETERS is a certified Master Gardener with 12 gardening books to her credit. She has gained valuable experience in every aspect of the horticultural industry in a career that has spanned more than 16 years. Laura especially enjoys sharing her practical knowledge of organic gardening, plant varieties and gardening products with fellow gardeners.
