Steve Ryan : Sassy Saguaros before purchasing it in order to gage whether or not it would be worth my time, and all praised Sassy Saguaros:

0 of 0 people found the following review helpful. Saguaros with personality By Susan T No doubt, saguaros are magnificent and interesting plants, but now they have something to say. The great pictures and clever captions keep you laughing. I don't think I'll look at a saguaro in quite the same way again. Great gift idea, 0 of 0 people found the following review helpful. Great Gift for Employee Recognition By Bill S I have been in love with Saguaros since the old cowboy movies. And then moving to Arizona in 1975 I had the opportunity to backpack through this wonderful desert. Steve Ryan has done an amazing job of photographing the Saguaros and then putting names to them. One if the

funniest books I've seen about shapes of cactus.0 of 0 people found the following review helpful. The perfect holiday gift for friends and family in Arizona orBy arizona nativeThis book is absolutely hilarious. The pictures and captions either make you laugh out loud or go "Aww, how cute". The perfect holiday gift for friends and family in Arizona or, even better, for Arizonans to send to their friends and families outside Arizona. The book shows how "fun" and beautiful Arizona is.

Steve Ryan spent months hiking and biking the beautiful Southwest Sonoran Desert, suffering more flat tires than he can count in his search for Saguaros that had something to say. Sassy Saguaros features the photographs he took of the most interesting subjects-based on their looks and personalities-and the hilarious captions he added (Steve is also a part-time comedian). These desert dwellers-which often weigh several tons and can live up to 200 years-are brought to life in the wonderful, wacky world of Sassy Saguaros. Get ready to laugh out loud and see how "human" this giant cactus can be!

About the AuthorSteve Ryan, explorer and photographer, has lived in the Sonoran Desert for over 40 years. A successful trial lawyer for 38 years, he's now retired and devoted to sharing the beauty-and "sass"-of the famous Saguaro cactus.
