Several of these have been published before but the treatment within will shine a spotlight on them for you. There are many more that I had not seen in any of his books. As with all of his work, unless you're one of the 2 percent, you won't be building any of these, but every one of them can be mined for ideas and inspirations. As always the photography is gorgeous and extensive. And don't miss the surprise "inhabitants" in the plans! :0 of 0 people found the following review helpful. Five Stars By C. Molina A+3 of 3 people found the following review helpful. House designs beyond belief. By J. Smith Breathtaking. Large color photos on nearly every page. Amazing and creative designs. Though fantastic eye candy, this book will stimulate ideas. He is an incredible designer.
