Roy Heizer : Savannah's Garden Plants before purchasing it in order to gauge whether or not it would be worth my time, and all praised Savannah's Garden Plants:

Stroll under the canopy of massive Live Oaks in Savannah's Historic District, and enjoy beautiful Crape Myrtle flowers in the summer and Camellia blossoms in the winter. For more than 275 years, Savannah residents have grown

plants and trees for commercial and culinary reasons, creating world-class ornamental gardens. The coastal city's unique blend of Northern trees and tropical shrubs makes it a gardener's paradise. Enjoy original tales and folklore pertaining to the history and science of Savannah's flowers, plants, and trees with licensed tour guide Roy Heizer. More than 160 photographs exhibit flora from the Historic District, squares, the house museum gardens, the Savannah Botanical Garden, Bamboo Farm, and Coastal Gardens.

About the Author Roy Heizer is a Certified Plant Professional in North Carolina, South Carolina and Georgia. He teaches classes and conducts lectures on folklore and gardening. His wife Nancy, a Savannah native, has been an avid photographer for many years.
