**Zachary Taylor : Scroll Saw Bench Guide (Bench Guides)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Scroll Saw Bench Guide (Bench Guides):

0 of 0 people found the following review helpful. Very DetailedBy Theresa HornbachI love this Book. Lots Of Information. Very Detailed. I could not be happier. Zachary Taylor noses his stuff. Thanks.0 of 0 people found the following review helpful. Five StarsBy Jim BA must have6 of 6 people found the following review helpful. Excellent reference book on scrollsaw and techniqueBy A CustomerFull of tips and techniques this is an indispensable reference book by an expert in his field. Clearly written with quick reference chapter finder, this book is a true benchtop reference. Very complete coverage of machines, jigs and accessories with comprehensive sections on blade types, selection and usage. Sections on cutting wood and other materials eg bone, plastic. Particularly informative chapter on cutting techniques which shows, amongst other things, how to get inlays to fit perfectly. This book has been so popular it has been reprinted.

This is every professional secret and short cut; every blade; every fine-turning, sharpening, and cutting technique; and more. Bring your knowledge of the scroll saw up-to-date, from standard features to saw blades, from adjustments and alignment to materials and sawing operations. Choose the right accessories for your workspace. Learn new shop tricks and secrets. With meticulously detailed drawings and photos.

About the Author Zachary Taylor founded the Lignaphonics Laboratory for the study of the acoustic behaviour of instruments and established the Hertfordshire Guitar Academy. He became a visiting tutor of instrument making and guitar playing at West Dean College. He has served on committee of the Art Workers' Guild, contributed dozens of magazine articles on making instruments and prestigious woodwork, exhibited as demonstrator and chief judge of the National Woodworker Competition and gives lectures for the British Museum. He is also co-author of The Mini Power Tool Handbook (0806922923). He lives in Kenton, Middlesex.
