I bought is used (out of print?), and, regrettably, the several pages that were most important to me were missing.As a scroll saw pattern book, it is of intermediate quality, but was inexpensive. Using only a few patterns will make it worthwhile.0 of 0 people found the following review helpful. Very happy to find this bookBy Marianne L.Very happy to find this book. I lost the one I had many years ago in a house fire.0 of 0 people found the following review helpful. Five StarsBy NICOLE GREENEworks well

Most patterns of the 450 plus are full-size, and range from simple wall plaques, alphabets and puzzles, to fine frames,

shelves, and inlays. Make practical items like lamps or gifts like jewelry. Tips abound on changing sizes, flipping, woodburning, finishing, stenciling. The scroll sawers delight. Popular Woodworking. A source book...very interesting collection of unusual patterns. The Mallet.
