Carol Zentgraf : Sewing for Outdoor Spaces: Easy Fabric Projects for Porch, Patio, Deck, and Garden before purchasing it in order to gage whether or not it would be worth my time, and all praised Sewing for Outdoor Spaces: Easy Fabric Projects for Porch, Patio, Deck, and Garden:

1 of 1 people found the following review helpful. Good Idea BookBy AnneAn okay book. It has directions on how to make a variety of projects for the outdoors. I bought it with the intention of making new cushion covers and specifically how to estimate the amount of fabric needed. I found that the directions are the same found on the Internet and no help in the yardage estimation department.2 of 2 people found the following review helpful. Pricey for the contentsBy C. ParishThis was an expensive book, but I did not see big value in it compared to what you can find for free online, or in other books with a wider array of projects.0 of 0 people found the following review helpful. Sewing for outdoor spacesBy DonnaLee McCallaThis was received within the timeframe specified and in great condition. Living in the tropics and three lanais to maintain, this book looks as simple as it can get when instructing how to make

cushion covers and a bit more.

Patios, porches, decks, and gardens have become outdoor living spaces decorated for comfort and style. Behind this trend is the introduction of performance fabrics that hold up in outdoor conditions but look like elegant decorator fabrics. *Sewing for Outdoor Spaces* tells how to turn these popular fabrics into custom outdoor decor. The step-by-step instructions include thick cushions and furniture pads, linens for dining al fresco, even a fun cabana. There are how-to photos throughout and tips on choosing, sewing, and cleaning performance fabrics. *Sewing for Outdoor Spaces* makes it easy and fun to decorate for outdoor living.
