2 of 2 people found the following review helpful. It's a poor excuse for grammar and reads as though a computer ...By JKB2I should have read the other reviews before my purchase. This book is not worth 50 cents. There are no real plans or descriptions on shed building. It's a poor excuse for grammar and reads as though a computer translated multiple foreign languages. Stay away... stay far far away.2 of 2 people found the following review helpful. Horrible. Unreadable. Not worth the free price.By The Review LadyI would give this 0* if i could! Don't bother downloading this. It is obviously written by a non-English literate writer and has only a few very generic drawings in it. Not sure why they say 10 sheds there are about 4 or 5 different line drawings of sheds with no helpful info at all.2 of 2 people found the following review helpful. Incredibly bad. Probably not even worth the download on kindleBy Eric FosterIncredibly bad. Probably not even worth the download on kindle. You can find better shed plans for free on a google search.
