The most important thing when reaching towards your goal is taking the first step. The path of getting your container house off the ground is a bit daunting at first. Buying this book was a great first step for me that I will never regret. Once I read the content of this book, I could see that it isn't only possible to build one of these cheap and amazing homes, but fun and can be done quickly! This is a must if you wonder if these homes are right for you!1 of 1 people found the following review helpful. Good ideas about shipping container homes. Recommended for all.By Christopher GibbsI want a small tiny container shipping home for me where I can do yoga, read books, basically a place for a peaceful environment. This book gave me details about shipping homes and how we can make it better. There were details about advantages and disadvantages of shipping home. I thought it will be costly but I came to know that its very cheap and can be built easily with beautiful designs. Thanks for this book for providing many ideas about shipping container homes.0 of 0 people found the following review helpful. this book tells you nothing you cannot find on the internet and the 'fluff' piece at the front about different types of boxes usBy R. EdmeadesIt would be more worth while, and money saving, if you just googled container homes, this book tells you nothing you cannot find on the internet and the 'fluff' piece at the front about different types of boxes used for shipping is just a complete waste of time. Save yourself the money.
