From Brand: Meredith Books : Shop-Tested Large Furniture You Can Make (Wood Book) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Shop-Tested Large Furniture You Can Make (Wood Book):

26 of 27 people found the following review helpful. Plans and instructions for making 14 furniture projects By James Fourteen plans for large furniture projects with full diagrams, step-by-step instructions, cutting lists and bills of materials. This book covers storage items, tables, chairs, desks and outdoor furniture. Skill levels range from experienced beginner to intermediate woodworker. If you like to build furniture, get this book. The book price is less than most plans for one piece of furniture, let alone fourteen. 0 of 0 people found the following review helpful. Great book By Arizona Girl My husband is looking forward to doing several projects already. They are clear enough I could work right along with him. 2 of 2 people found the following review helpful. High quality but very dated By Scott

PointonI am a longtime subscriber to BHG Wood magazine, so its no surprise that I appreciate the high quality plans contained in this book. The 14 projects are broken into three sections: Storage Units; Tables, Chairs, and Desks; and Outdoor Furniture. Everything you need to know to build these projects is clearly explained and well illustrated. The only drawback for me as a woodworker is that most of these projects have a distictly dated feel to them, with most of the pieces looking like contemporary furniture from the late 1970s and early 1980s. The exception would be that the outdoor furniture projects are of more classic designs and thus will not go out of style. Overall this is a high quality book that suffers only this one flaw.

From desks and tables to entertainment centers, Shop-Tested Furniture You Can Make includes step-by-step instructions, diagrams, and color photos of the finished project to make crafting large furniture foolproof for both the woodworking enthusiasts and beginners. 60 photos, 30 in full-color.
