I don't want to read about decorating I want to see it. 23 of 23 people found the following review helpful. I have Melissa's other books and love them all By Jo This little book is packed with ideas and color photos. I have Melissa's other books and love them all. I don't always re-read my books but hers I do. I love her writing style-it's like sitting with a friend chatting over a cup of coffee or tea. (With her it would be coffee!) The only negative I can say about this book is that I've seen either these photos, or ones like them before. Since I have her other books (and follow her blog, The Inspired Room) I'm already familiar with her

home photos. Maybe in her next book she can include pictures of other homes that are similar to her style? Just a thought. All in all I'd buy this book again. Definitely a favorite author! 4 of 4 people found the following review helpful. So inspiring!! By Laurel Renae This book is great! The photos make it a five star-- Melissa gives many practical, yet charming and lovely ideas...she really knows how to put ideas together, and inspires me to do the same! Love it!
