following review helpful. Three StarsBy Suekok fun to read. Not any ideas I have not seen before.1 of 2 people found the following review helpful. useful + hilariousBy pentopaperthis book is perfect not just for people living in small spaces, but also for those who have way too much stuff. the tips are smart, practical and insightful, clearly from an author who knows what she's talking about (and no recycled information we've heard a thousand times!). what i love most about the book, though, is that the author talks to the reader like she's a friend. her voice is strong, direct and hilarious. i found myself laughing while dog-earring the pages. all in all, a fantastic read, chock full of de-cluttering and entertaining tips that will change the way you live.
