8 of 8 people found the following review helpful. worth the priceBy unlistedIf you're stuck doing your own small engine repair, this book will pay for itself on the first overhaul. It's clear, concise, and easy to follow. I'm not fan of small engines - they're the bane of my existence, but I've got a big yard, and lots of need for motorized equipment.

This has been a life saver.3 of 3 people found the following review helpful. Great bookBy WallyI have went through the book and it appears to have everything I need to keep my small engines running just fine.0 of 0 people found the following review helpful. Five StarsBy 187Great book @ a great price. Arrived in time. Will buy again.
