Great Gardening Book for the Creative GardenerBy SofieII have gardened since I was a child and have been collecting useful gardening books for many years now. I originally checked this book out at the local library and fell in love with it. Had to have it for my own so I purchased it used through an vendor. When I find a good gardening book with novel and useful ideas it quickly becomes well loved and well worn. My book already is dog eared, highlighted and filled with notes on post its. Having recently moved to a new location with basically a clean slate in which to gardening and landscape, this book quickly caught my attention with its clever as well as penny pinching ideas. I have already begun to search for the items I did not already possess in order to create some of these wonderful ideas for brightening up my house and yard with plants. Particularly, I am planning to make wooden boxes in which to grow herbs, sew an oil cloth tablecloth so hang from my wrought iron rails outside, and hang suet filled cookie cutters from the tree limbs for the birds to enjoy. The instructions to these projects and many others are all within the pages of this small book. I highly recommend this book to any gardener

who likes unique, useful, affordable and recyclable ideas for your green children. Just imagine the satisfaction you'll have to see what you've done with items you never thought of as specific for gardening! 0 of 0 people found the following review helpful. Nice ideas. By The Princess and the Pea Nice little book with cute ideas for small spaces. A good book, for us indoor gardeners. 1 of 1 people found the following review helpful. Gifts from the gardeners heart. By Angela M. Sullivan I love this book chocked full of creative gardening ideas. When I first checked the book out of the library and looked inside I knew I had to own it. It has so many wonderful ideas on how to make a small area come alive with plants. A LOT of the ideas I plan on making as gifts for friends. You won't be disappointed in this book it is a treasure trove of ideas.

Perfect for people who have little space to garden, whether a doorstep, balcony, or part of a wall. Small Space Garden Ideas is full of creative ideas for making use of every growing space available. From windowsills and hanging baskets to rooftop containers and vertical gardens, Small Space Garden Ideas shows you how to create a dream garden, through step-by-step projects from start to finish.

"Philippa Pearson's Small Space Garden Ideas is an archive of perfectly formed ideas for indoor and outdoor garden inspiration. Certainly the sky is the limit for Philippa Pearson and with some imagination and compost, there is no reason why one could not recreate their own private hanging gardens of Babylon." New York Journal of Books "Not only is the book packed with smart and inventive ways to make square-foot gardening feel lush and full, but she has plenty of ideas for ways to add colorful repurposed elements that deliver a flea-market-packed punch." Cottages Bungalows Magazine "Keep your hand in the garden all winter with these clearly explained and temptingly photographed DIY projects." Seattle Times
