It's too expensive to buy a "home" in California....so a tiny house is starting to look like a smart move. This book gives me lots to design from1 of 1 people found the following review helpful. Great pictures!By AK\_RiderVery stylish photos in this compact book! It is a great addition to any coffee table and provides tons of inspiration for "would be" interior designers!18 of 19 people found the following review helpful. Small SpacesBy Reads-a-lotThis is a photo book good for gathering ideas from the photos but short on practical suggestions.

Living in a small space is no excuse for cramped quarters or a lack of style. This handy guide provides instructions on

making the most of available space and demonstrates how careful consideration and a unique approach can turn any room into a luxurious accommodation. Clever design strategies that clear up usable floor area and produce better spatial quality are included along with a slew of tried and tested ways to making a small space appear bigger through the use of decoration and furnishings.
