**Carles Broto : Social Housing** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Social Housing:

The examples included in this volume are a clear demonstration of the optimization of resources used in social housing architecture. These projects offer a great variety of typological solutions that are as flexible in their material fulfillment as in their functionality. Every project in this book is thoroughly documented and profusely illustrated with full-color photographs, offering a wealth of information for architects, students, or anyone else who is interested in new forms of social housing architecture.

About the Author Carles Broto, has over 20 years experience in the publishing industry, specializing in architecture and design. His considerable expertise has led to his works becoming a reference for professionals and students alike. He is currently leading the development of the ARCHITECTURE ONLINE LIBRARY, a trail-blazing online architectural publication collective. He lives and works in Barcelona.
