Daniel Geery : Solar Greenhouses: Underground before purchasing it in order to gage whether or not it would be worth my time, and all praised Solar Greenhouses: Underground:

4 of 4 people found the following review helpful. Solar Greenhouses Underground, I think this would be a gardeners dream come true.By carolyn parkI liked that he did it himself and in my town. Wonderful detail and many options so it could be built inexpensively or expensively. I would recommend it to everyone who loves to grow their own food year around with no heating expense. I truly loved it.0 of 0 people found the following review helpful. Great bookBy TerriGreat book
