Southern Living : Southern Living Garden Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Southern Living Garden Book:

0 of 0 people found the following review helpful. My Favorite Gardening BookBy ExasperaWhen I first received this book in the 90s via the magazine subscription in the mail, I was poised to immediately return it. But then, dun-dun-dun!, I started reading it. I consider it to be the best book for beginning to advanced gardeners I've ever read. From how much sunshine, how much water, does it have a snowball's chance of making it in your garden, this book has it.While I am keeping my copy, I ordered another one from a source here on , as it is no longer in print, to give to a new home-owning family member. The book is timeless.0 of 0 people found the following review helpful. Love it. Covers a lot of plantsBy DebbieLove it. Covers a lot of plants.0 of 0 people found the following review helpful. Best garden book ever!By MollieThis is the best gardening book out of the 17 that I own. I go to it for everything. I love the

way there are different sections for shade, sun, vines, fall color, etc. This is the second one I purchased, as a gift for my niece who is just beginning to garden.

Get gardening with the first comprehensive gardening encyclopedia for the South!
