Judith Phillips : Southwestern Landscaping with Native Plants before purchasing it in order to gage whether or not it would be worth my time, and all praised Southwestern Landscaping with Native Plants:

0 of 0 people found the following review helpful. Four StarsBy FloraA good book.0 of 0 people found the following review helpful. Five StarsBy karen s.This guide is full of photos, graphics, photos, and drawings. this is a "Go To" resource for desert landscaping.0 of 0 people found the following review helpful. Five StarsBy CustomerI've enjoyed the book

This book has been the inspiration for tens of thousands of gardeners facing the challenging winds, soils, and droughts of low- and high-desert gardens. A perennial gardener's favorite, this guide--with 53 color photographs and an all-new appendix of adapted plants--is the classic resource for reaping the rewards of landscaping with native and adaptive plants that will make a success of any gardening effort.

. . . a wealth of general information on design and maintenance that applies to landscapes throughout the Southwestern United States. -- Fine Gardening
More than just a plant book, it discusses in depth how to design with and grow native and arid land plants. -- Sunset Magazine
From the Publisher
The classic introduction to arid-land gardening in the uplands, mountains, mesas, prairies, river valleys, and meadows of the Southwest, by the region's most celebrated landscape designer and author.
About the Author
Judith Phillips has worked in ornamental horticulture since 1970 as a professional plant grower and landscape designer. She is the author of several books including Plants for Natural Gardens: Southwestern Native Adaptive Trees, Shrubs, Wildflowers Grasses and Natural by Design: Beauty and Balance in Southwest Gardens.
