Hire the work out....By ThoseWhoDareWinI bought this book because I decided I had wanted to put in a paver pathway in our backyard. The book is awesome! It had very good suggestions with pictures that helped walk me through step by step. The pathway is about 40 feet long by 4 feet wide and turned out incredibly well! For anyone putting in a paver pathway this book is great. The work is very strenuous and labor demanding and should not be taken lightly. I used a tiller to loosen the soil to remove and recommend that if your doing a big project. I am by no means a do it yourself-er but this book really was the key to my success!0 of 0 people found the following review helpful. Start - to Finish Paths WalkwaysBy S. JosephThis book is great for ideas and provides good information if you intend to tackle a project like this.0 of 0 people found the following review helpful. Three StarsBy R.C. TuckerSent very quickly--not much information in this booklet.
