Great ideas, lovely photos, and I love reading his writing, which flows well, makes great design sense, and speaks to me, in 'my' design language!1 of 1 people found the following review helpful. Lovely book!By Montana galWhile I am not sure us "mere mortals" can incorporate many of the ideas Sills puts forth, this book is, nonetheless, worth having on my shelf.0 of 0 people found the following review helpful. BeautifulBy William CooperIf you've been buying Architectural Digest and Elle Decor for the last ten years, then you've seen all or most of these pictures before with slight variations. With that said, I still love this book. Maybe it has to do with the fact that this guy is a GREAT designer. The cover alone is one of the most beautiful book cover ever. Get it!

The first book to focus on the solo residential work of the visionary interior decorator Stephen Sills. Simultaneously classical and modern, Stephen Sillss design work is a dialogue between past and present. Filled with luxurious fabrics,

furnishings from across centuries, and unusual finishes, his work is polished, seemingly effortless, and quietly rich, with a muted color palette that serves as a brilliant foil for modern art. In this striking, meditative volume, the follow-up to his best-selling book *Dwellings*, Sills presents sixteen breathtaking homes, gorgeously photographed by the legendary Francois Halard, in locations as varied as a penthouse on Manhattans Fifth Avenue, a modern Aspen retreat, an estate on the North Shore of Long Island, and his own country house in Bedford, New York (dubbed the "chicest house in America" by Karl Lagerfeld). Common to them all is a sense of atmosphere, point of view, and soulthe sense of a master craftsman at work.

highly anticipated design title...Stephen Sills is an expert at imagining chic spaces that complement their fashionable occupants. ~Architectural DigestThe Sills aesthetic is simple and exacting, as evidenced here in a new book a refined palette matched with a visually arresting collection of furniture and objects. ~Town CountryInterior decorator Stephen Sills is turning heads with his classical, yet modern style that illuminates even the most lackluster spaces. The title of the book is so simple, but Sills' work most definitely is not. Sills' projects are beautifully crafted and filled with treasures and exquisite details. The cover is an excellent introduction to the caliber and quality of the work contained within.
