1 of 1 people found the following review helpful. Fake ReviewsBy CSI've been on a long time, and I've read probably thousands of reviews on everything from tools to books...lots and lots of books!These reviews are fake, save for the other one-star review.Well, either they're fake, or a spectacular amount of reads of this book also do event planning and build chicken coops, find the same books on these subjects worthy of 5 stars, and never find anything worthy of less than 5 stars..And English is their second language...no, that's not racist or being a grammar nazi, it's from having constant close contact with folks for whom English is a second language. I can spot it immediately.This isn't the first time I've seen phony reviews on . I'm a little disappointed. Something to watch for in the future.Hopefully will put a link on the reviews page, so these things can be flagged and removed. I'm aware I can report each person, but that's a lot of time I don't have.4 of 4 people found the following review helpful. This is a joke? Absolutely useless. The fake reviews were a betterbread.By Kent TaylorWhat absolute pablum. Obviously all of the reviews are faked. It took me less than 90 seconds to review the content and delete it in disgust. THERE IS NO INFORMATION IN HERE OF ANY VALUE. None. Zilch. A waste of time.1 of 1 people found the following review helpful. One StarBy BKDidn't care for. Not indepth
