A MUST HAVEBy Evan and RachaelI bought the book and settled down to have the best garden in my neighborhood. I read it cover to cover and was sure I remembered everything just right. I mixed up the fertilizer. DO NOT USE time-release fertilizer! My plants came in late and I didn't get the harvest that I would have had otherwise. I was able to talk to the actual author of the book, and he set me straight on what I'd done wrong. There is also a facebook group dedicated to this subject with the author himself an active memberWith this book, following it's guidelines and joining the facebook group, you will have a never fail harvest! Happy Gardening!8

My husband is sold on this concept and hopefully we will be swimming in vegetables this summer. The only problem was we didn't buy enough bales. The book arrived on time and in great condition.
