Blog review of "Successful Small Food GardensBy CustomerThis book promises to show you how to enjoy vegetable gardening in the city, in a condo, apartment or mobile home; in small spaces. I am always especially interested in learning what plants make good companion plants, how they handle irrigation and their methods to improve soil quality. When reading/reviewing a book I typically focus only on the topics that pertain to my personal gardening situation and plans.I have a full review for this book on my blog at -theurbanhomesteadproject.blogspot.comSince will not allow me to put in a link to the blog, you will have copy/past it in the web address and remove the spaces.0 of 1 people found the following review helpful.
