Roy Strong : Successful Small Gardens before purchasing it in order to gage whether or not it would be worth my time, and all praised Successful Small Gardens:

0 of 0 people found the following review helpful. GREAT RESOURCE for the landscaper By D. Mann If I were a landscape gardener - I'd give it 5 stars. I purchased for ideas for my narrow lot - and its depth of what to plant where - is quite detailed and efficient. As an amateur, it may be a little too advanced for me; the person who Pinterests for ideas. BUT for the price; WELL WORTH THE PURCHASE. 3 of 3 people found the following review helpful. A sampling of small gardens planned and designed by the experts. By Edward Surla This is a beautiful little book featuring many good small garden ideas by expert gardeners. It is full of color photographs, very detailed garden layouts and full plant descriptions of each garden. I highly recommend this and Roy Strong's "Creating Small Gardens". 0 of 0 people found the following review helpful. Wonderful By Jill The ideas for small spaces in this book are clever and varied. The various styles and methods presented make me want to design small gardens.

An essential handbook showing plans for 20 small gardens.
