SUNSET BOOKS AND SUNSET MAGAZINE : Sunset Western Garden Book 40th Anniversary Edition

before purchasing it in order to gauge whether or not it would be worth my time, and all praised Sunset Western Garden Book 40th Anniversary Edition:

0 of 0 people found the following review helpful. good will toward womanBy melvinmoormanwriterThanks for the memories. I remember in High School how I used to find flowers and plants that mesmerized me and I could never get the names of such beauties. Well, after finding this book and having bought so many plant/flowers/orchid books in the past I know I have finally found one of my Golden books.I have an enormous collection of plant and flower books but this one has reigned over all the others. Thankyou, thankyou----THANKYOU Goodwill books.Zula0 of 0 people found the following review helpful. Highly recommendedBy JJ in PHEven though I now live on the east coast (which makes the wonderfully detailed climate zone information nearly useless for me), in my opinion this is still the best gardening/plant guide book available.

Blending accurate information with an appealing, colorful design, Sunset has created an essential guide for all types of gardeners. Includes an encyclopedia with more than six thousand entries, expanded plant selection guide, easy to follow techniques, climate zone maps, and more. Over twenty five hundred illustrations, six teen hundred in color.
