Karen McCartney : Superhouse before purchasing it in order to gauge whether or not it would be worth my time, and all praised Superhouse:

Not the largest houses but the most sensitively conceived of, and the most in tune with their own surroundings. To Karen, the super house has nothing to do with size; instead, it is one that has a strong connection with nature, that goes well beyond the everyday, and that, through the sensitivity of both architect and client, is imbued with mindfulness. From Australia to Ireland, Italy to Morocco, she's found such spiritually uplifting places. Following interviews with many of the architects and owners, she discusses each house in detail; her informed and engaging text is matched by

Richard Powers' striking photography. This collection is a must for anyone interested in architecture and design.

"These unique homes will inspire you to think outside the box."-- Architectural Digest Online, 11/9/2015
