**Steven Hunter : Survival Guide: Create Your Own Affordable Off Grid Water System: (Off-Grid Living, Self-Sufficient Living)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Survival Guide: Create Your Own Affordable Off Grid Water System: (Off-Grid Living, Self-Sufficient Living):

0 of 0 people found the following review helpful. For the price, not a bad book to readBy S. BorrelliThe author

explained how to use rainwater for storage to use during disasters. These techniques could also be used during regular times just to conserve water (if you are on a well) or store for use for a garden. There are some good ideas in the book but not a lot of detail. I felt that more information could have been provided and recommendations made purchasing barrels and gutter diverters. For the price, not a bad book, but could be better if more info was included. It was well written. 0 of 0 people found the following review helpful. Not a good deal By Enya Don't expect anything. No details just a bit of bla. Very disappointed.
