**Peter Gevorkian : Sustainable Energy Systems in Architectural Design: A Blueprint for Green Design** before purchasing it in order to gage whether or not it would be worth my time, and all praised Sustainable Energy Systems in Architectural Design: A Blueprint for Green Design:

3 of 3 people found the following review helpful. Mostly a Primer on Solar PowerBy John MatlockWe have all intellectuality known that the continued use of fossil fuels has been dumb. But this year the emotional understanding of the situation came closer to home as the cost of home heating has roughly doubled. All of a sudden, sustainable energy, particularly solar power looks a lot more attractive than it did even last year.In spite of its title, this book is
