Rita; Holmes, Roger (editors) ; Et Al Buchanan : Taylor's Master Guide to Gardening (GARDENING, REFERENCE, HORTICULTURE, BOTANY) before purchasing it in order to gage whether or not it would be worth my time, and all praised Taylor's Master Guide to Gardening (GARDENING, REFERENCE, HORTICULTURE, BOTANY):

0 of 0 people found the following review helpful. Five StarsBy philip minottiInformation and photographs are fantastic for outdoor gardening. Still in publication so that says it all.0 of 0 people found the following review helpful. Four StarsBy CustomerThank you for the item.0 of 0 people found the following review helpful. Five StarsBy Debra E. Bowmangreat book.

This beautiful 612 page book is a complete one-volume reference for North American gardeners, with a fully illustrated encyclopedia of 3,000 of the best plants to grow in every region, over 1,000 color photos in the photo gallery, a major section on creating a garden, starting with the basics of design and covering all the important elements that go into a garden - paths, hedges, beds and borders, ground covers, meadows, terrace plantings, rock gardens, water features, and more. "No matter where you live, no matter how many garden books you own, 'Taylor's Master

Guide to Gardening' is the one you will turn to again and again for information and inspiration."
