Rebecca Atwater Briccetti : Taylor's Weekend Gardening Guide to Cold Climate Gardening: How to Select and Grow the Best Vegetables and Ornamental Plants for the North (Taylor's Weekend Gardening Guides (Houghton Mifflin)) before purchasing it in order to gage whether or not it would be worth my time, and all praised Taylor's Weekend Gardening Guide to Cold Climate Gardening: How to Select and Grow the Best Vegetables and Ornamental Plants for the North (Taylor's Weekend Gardening Guides (Houghton Mifflin)):

0 of 0 people found the following review helpful. bookBy VictoriaI received the book - Taylor's Weekend Gardening Guide to Cold Climate Gardening, very quickly and as described. Thank you0 of 0 people found the following review helpful. so fast, receive it next day .By Virginia5 star. my brother like it , great . I quite enjoy this product. I like to collect kitchen utensils but usually shell out for pots and pans and buy my knives at thrift stores. For the price, this product has been super useful. great.6 of 7 people found the following review helpful. All the basicsBy C. BurtonIt was the book I was looking for. Contains a significant amount of helpful information. In particular, the information on which items complement eachother in the growing cycle. I would definately recommend it for the home gardener.

Illustrated with 50 color photos, all the information a reader needs to succeed with a garden in a cold climate: Selecting shrubs, trees and perennials that are hardy to zone 5 or colder, and making use of microclimates; Planting only vegetables and fruits that will ripen in a short season; Designing a landscape that for much of the year will be enjoyed only from the inside looking out; Protecting plants through the uses of mulch, cloches, cold frames, row covers,windbreaks, and antidessicant sprays; Making use of microclimates; Plus lists of the best plants for northern gardens.

About the AuthorRebecca Atwater Briccetti is a gardener and writer. She lives in Maine.
