One drawback is it doesn't remove well and leaves a very sticky residue. Overall it does what I bought it to do. 0 of 0 people found the following review helpful. Five Stars By SLewis Works great. 1 of 1 people found the following review helpful. What more could you ask from tape? I'll be ordering more when I finish this tape as it's just so handy! By Susan D Okay if you are a crafter or you have hobbies you have to purchase some of this tape! I love it and am adding it to so many of my tools. All of my quilting rulers and shapes are covered in the tape as it's fantastic. The rulers are so much easier to use now you don't have to worry about them slipping. The tape grips perfectly and just keeps them all from slipping and ruining my cutting line. There is so much you can use this tape for. The thing I love is it's easy to tear a strip off and even easier to tear it into smaller pieces for smaller items. When you tear it length ways the other brilliant thing is that it tears in a straight line. Each package includes two 1" 10 yard rolls for all your taping needs. So I won't be running out any time soon. The tape is brilliant when sewing anything as you can keep the pieces together in place and then the tape is easy to remove and doesn't leave residue behind. Do you have a paper pattern that is torn, don't worry this tape will soon have it fixed. Do you have something you have to glue together but it's very awkward to keep it together whilst it's drying? Don't worry the tape can keep it in place and then be easily removed. It's not just a tape for crafters, if you use any type of tool and you want to keep it from skidding away whilst you put it down, then add some tape to the tool and you'll find it won't skid away anymore. Water resistant, easy to write on, permanent on paper, and repositionable on everything else (even after an extended time) What more could you ask from tape? I'll be ordering more when I finish this tape as it's just so handy! I received this product to review. However all opinions expressed are my own. No monies were exchanged.

You won't believe how much you can do with this all-purpose tape! Tear-Perfect Maker Tape is gridded so that it tears easily and perfectly in either direction, providing you with just the right amount each time for whatever project you're working on. Use it to hold glued objects together while they dry, make quick fixes, create a gripping surface, identify project pieces, make templates and rulers non-skid, hold down embellishments, mark buttonholes, and much more! No need for scissors! Bidirectional grid means it tears with ease in both horizontal and vertical directions. Water resistant, easy to write on, permanent on paper, and repositionable on everything else (even after an extended time!) Great for quilters, sewists, crafters, and hobbyists

About the Author Judy Gauthier is a wife, mother, and nurse. She began sewing at a young age and is the owner of Bungalow Quilting Yarn, with two locations in Wisconsin. She lives in Ripon, Wisconsin, with her family and her poodle, Leroy.
