Luebbermann, Echtermeyer : Terrific Tomatoes (A Garden Style Book) before purchasing it in order to gage whether or not it would be worth my time, and all praised Terrific Tomatoes (A Garden Style Book):

0 of 0 people found the following review helpful. :By Salvatore:-)3 of 3 people found the following review helpful. From heirlooms to salsaBy Lynn Harnett"Terrific Tomatoes" is attractive and easy-to-follow. It begins with general growing advice and moves on to specifics such as container gardening - for color, with herbs, in hanging baskets."In the Garden" Luebbermann reviews techniques and varieties for a "really early" patch, an Italian tomato garden, a riot of colors. Another section is devoted to exotics, from tomatillos to ground cherries to heirlooms. And she concludes with tomatoes in the kitchen, from soup to sun-dried to salsa. Photos by Faith Echtermeyer are lush and crisp and show the plants as they really are - complete with insect holes and spots.

Now, growing juicy, flavorful tomatoes is a snap with this lavishly illustrated book. Six chapters containing easy-to-follow instructions for cultivating tomatoes in everything from a small hanging basket to a substantial outdoor plot practically ensure success for even amateur gardeners. Recipes included. 91 full-color photos.
