Amy Wilbanks, Nancy Oxford, Dana Miller, Sharon Coleman : Textiles for Residential and Commercial Interiors 3rd Edition before purchasing it in order to gauge whether or not it would be worth my time, and all praised Textiles for Residential and Commercial Interiors 3rd Edition:

0 of 0 people found the following review helpful. Five Stars By Sylvia J Strother Thanks 1 of 1 people found the following review helpful. Good for reference, not classroom By Grilled Sardine I needed this book for an interior design class on textiles. It is loaded with very detailed and useful information, however I found it too dense and a little too filled with unnecessary information. I will likely use this as a reference book going forward, rather than the classroom textbook it was meant to be. 2 of 2 people found the following review helpful. very helpful! By alexis wetherell I purchased this book for school while I majored in Interior Design. Unlike normal text books, it is so interesting and filled with facts necessary to know for a career in this field!

Devoted entirely to textiles for interiors, *Textiles for Residential and Commercial Interiors*, 3rd Edition, focuses on the most current fiber and fabric information including new fiber technology and nanofibers, the role of the interior designer in selecting textiles, and the environmental impact of textiles. The book includes in-depth coverage of household and institutional textiles, in addition to commercial and residential textiles for upholstered furniture, windows, walls, and floor coverings. Full-color line drawings and photographs illustrate fibers, yarns, fabrics, manufacturing equipment, coloring, finishings, and end products. *Textiles for Residential and Commercial Interiors* provides students with all of the technical information, aesthetic fundamentals, and practical knowledge they need to select textiles for every type of residential and commercial interior.

About the Author Sharon S. Coleman, Dana Miller and Nancy Oxford are based at Middle Tennessee State University. Amy Wilbanks is based at Textile Fabric Consultants, Inc.
