Severine von Tscharner (Editor) Fleming : The 2013 New Farmer's Almanac before purchasing it in order to gage whether or not it would be worth my time, and all praised The 2013 New Farmer's Almanac:

It's beautifully designed and illustrated and has a great mix of historical and contemporary farming tips, tidbits and POETRY. It's such a lovely, inspiring book - just looking at it makes me smile.

The 2013 New Farmer's Almanac is a publication with its eye fixed sharply on the future of America How will we reclaim a landscape dominated by monoculture? How will we accommodate the upcoming climate megaflood? How will our nation change, and how will be changing it?
