For those who enjoy reading about gardens and gardeners, this is a pleasant book. I had recently read a book ABOUT this gardener, Ms. Verey, and was interested in reading something written BY her. The photography in the book was reputed to have been stunning at the time of publication. Today, it pales in comparison to new publications. Classic Gardens This Side of the PondBy M, Compulsive ReaderGardens?! In America?! Documented by an Englishwoman?! Rosemary Verey has American women tell how their gardens got the way they did.
