Joke wears a little thinBy Tracy RowanLet's face it, this instant Zen thing is funny. But once you've shelled out the bucks for the kit, you may find yourself wondering why you bothered. You're never really going to understand Bonsai by sprouting a potato. You might learn something about Zen somewhere down the road, but I wouldn't count on it. If it was this simple, all elementary school teachers would be

Bodhisattvas and their students, enlightened masters. No, this is pretty much a joke, and a good one, too, but in the end it's a lot of money to pay for something that's going to leave you with a rotting potato and a bunch of bored friends who have heard the joke a few dozen times. You could go to the supermarket and get a sweet potato and do the same thing for far less. 12 of 12 people found the following review helpful. It's hysterical....and yet it had a calming affect...By A Customer I am way too busy to take care of anything that requires water everyday. The Bonsai Potato was perfect!!! The book was hysterical, and I actually got the potato to sprout! This is the perfect holiday gift for the people you have to buy a gift for...but don't know what to get. This book and a big fat Russet, and you are in business. I actually got the book as a gift, and now it's on the top of my shopping list.

Are you a person who longs for patience and tranquility in your life? Of course you are, but in our modern society who has the time? Now it's possible. With the items contained within this kit you can quickly and efficiently reach an inner peace that can take monks an entire lifetime to achieve. The secrets are now yours. Zen - Without the Wait! You get a 64 page book which details the semi-ancient techniques of The Art of the Bonsai Potato. Rich in history: "within a 24-hour period all of the trees 'leapt from their pots like (untranslatable Chinese simile).' The growth spurt killed the entire ruling class as their palaces collapsed upon them." Pragmatic: "(research) found that by using potatoes not only could you create astonishing (bonsai) in months rather than decades, but the plants did not require re-potting, fertilizer or even water. The Art of the Bonsai Potato was born." This kit also contains a state-of-the-art, full-scale replica of an actual Bonsai Potato altar and a package of non-reflective irregular geo-particulate support medium. Everything you need to achieve patience and inner peace FAST! All you supply is the potato!

"Choose your path wisely and let the potato lead the way" -- Robert McDonald, Bonsai Potato master, The Art, January 1, 1999 "Often it is the one with the most eyes that cannot see" -- semi-Ancient Zen Proverb. China Sea Scrolls "Zen without the wait, I can hardly wait to get started" -- James Baum, President of the Western Massachusetts Literary Guild Zen Proverb Daily, January 1, 1998 About the Author Jeffrey Fitzsimmons (Author), Mike Dillon (illustrations) and Jim Linna (photography) have assembled a hilarious spoof on current Western civilization. Each of these gentlemen have credits and achievements too numerous to list and would be disappointed if we forgot to mention even one...so, we'll leave it at that.
