**Jerald P. Stowell : The Beginner's Guide to American Bonsai** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Beginner's Guide to American Bonsai:

1 of 3 people found the following review helpful. A timeless book By Tishp Written in 1978 a timeless book, the Art of Bonsai is not a changing subject, whatever worked decades ago will work now. My husband and I will take a journey to a new hobby we bought a few books and we are anxious to compare new books to this older one, I am sure we will have use for this older book as much as we will have for the new ones
