Mr Barkley, like me, seems to find creative uses for all the 'stuff' we save that everyone teases us about. Yet to see how he incorporates them into the final product and how beautiful they turn out, no longer makes me feel guilty about saving 'junk'. The other part that makes it truly five stars are the simple and direct instructions he gives for others to be able to create their tree top wonderland. Little things, about bracing, using ropes, balancing, etc. are explained well, and would be easy to adapt to various uses and just about any type of tree. While I might not get the entire treehouse up, I am definitely going to have a couple of bridges from one to another so the kids can at least explore from up above. This is a great idea book, a great tool for getting ideas for a whole host of projects, and best of all, a really interesting and fun read. His gentle humor makes it fun whether you ever actually build something or just want to enjoy a good book.2 of 2 people found the following review

helpful. superficialBy CustomerToo simplistic and superficial and chatty. Disappointing, light-weight. Not what I expected from description. Really wish I had researched this book better.Feel let down..4 of 4 people found the following review helpful. Ok butBy LHRlots of pictures and ideas, but not much building help

When his two young grandsons clamored for a hideout in the trees, what could Maurice Barkley, a sixty-something retiree, do but grab some wooden beams and a level? Now, more than ten years, seven tiny houses, and a spiral staircase later, Barkley's grandkids can truly say they have the best tree house ever. With a backyard that has become a tourist destination and the delighted cries of children playing pretend sounding in his ears, Barkley shares his pro building tips, floor plans, and how-tos in an easy-to-use guide anyone with a hankering for nature and a set of basic carpenter's tools can follow. *The Best Tree House Ever* records the creation and growth of a child-sized village built high above the ground and documents the wonderful, unexpected consequences—the visitors, the excitement, and the hundreds of friendships made that occurred along the way. Filled with plans and construction details of Barkley's entire tree house village, *The Best Tree House Ever* leads adventurers of every age to explore the magical worlds hidden amongst the foliage.

About the Author Maurice Barkley lives with his wife Marie in a suburb of Rochester. He is retired from a career as a commercial artist and has spent the last decade building tree houses for his grandchildren.
