Sarah Raven : The Bold and Brilliant Garden before purchasing it in order to gage whether or not it would be worth my time, and all praised The Bold and Brilliant Garden:

0 of 0 people found the following review helpful. Really enjoyable garden bookBy Kelli K.Beautiful Book. Tons of great ideas for creating more of a depth to your garden. Truly a lovely book. Just like my wardrobe, I struggle coordinating different flower together and this book is a great guide. Pretty enough to leave on the coffee table!0 of 0 people found the following review helpful. Five StarsBy Judy StevensonQuick service and a great book for gardners0 of 0 people found the following review helpful. Bold and Brilliant GardenBy Suzanne O'brienGreat book full of ideas and arrived in great condition.

This work offers a new approach to planning and planting. It shows how to throw caution to the wind and orchestrate colours, textures, scale and scent to spectacular effect from spring until autumn.The key is colour: intense, strong and voluptuous - deep crimsons combined with acid green and incandescent orange, for example. Integral to Sarak Raven's

vision is a feeling for dramatic scale: plants with huge presence, architectural foliage, strong, sculptural shapes. To complete the effect, she includes flowers with silken and velvety textures and describes how to flood the garden with scent. There are schemes for sunny, open beds and borders for shady areas, for damp soils and to clothe walls and fences - many of which include lots of quick-growing annuals and take only a season to achieve.

An antidote to pale pink and blue gardening.
