Herb L. Gustafson : The Bonsai Workshop before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Bonsai Workshop:

0 of 0 people found the following review helpful. Five Stars By Aliciacame in perfect condition. lovely book. 0 of 0 people found the following review helpful. Four Stars By MaliaGood information, 0 of 0 people found the following review helpful. Five Stars By Customer Thank you for a great book

This book features specimens of bonsai from the author's collection, photographed in colour. Simple tips on growing, pruning, principles of growth, tools, shaping, trimming, potting, training and wiring are provided, as well as information about the effects of weather, emergency treatment, watering, insect/disease control and winter care. The author also suggests imaginative ways of displaying bonsai in the garden, at home and at shows.

From Booklist Gustafson has designed his book for the beginning to intermediate bonsai enthusiast, outlining in straightforward fashion the essentials of the care, creation, and display of these lovely miniature trees. Basic bonsai care changes considerably throughout the four seasons, the author notes, and he offers the necessary seasonal advice by regions. Gustafson stresses the importance of learning how to merely keep a tree alive, no easy task for the beginner. He supplies answers to what he calls 100 basic questions concerning bonsai culture in this book, which contains 402 color and 68 black-and-white illustrations. Gustafson gives a short history of bonsai, along with advice on pruning, potting, training, creating, and displaying them. There's a glossary and a suggested reading list. But this

book should be the only one you need. George Cohen For the beginning to intermediate bonsai enthusiast, outlining in straightforward fashion the essentials of the care, creation, and display of these lovely miniature trees...this book should be the only one you need. -- Booklist
