**A. Defries : The Book of The Mushroom - Growing Harvesting** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Book of The Mushroom - Growing Harvesting:

Originally published in 1936, this book is a detailed guide to the cultivation of the mushroom. Full of detailed information and instruction on growing and harvesting, this book is still of great practical use to today's grower. Many

of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. Hesperides Press are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork. Contents Include : Introduction The Nature of the Mushroom Site and Soil Buildings Manures Spawns Making up Beds Care of Beds Diseases and Pests and Their Control Picking and Packing Exhibiting Some Companion Crops Marketing and Costings Cooking Recipes
