Robert H Elliot : The Clifton Park System of Farming and Laying Down Land to Grass: Biodynamic and Organic Classic before purchasing it in order to gage whether or not it would be worth my time, and all praised The Clifton Park System of Farming and Laying Down Land to Grass: Biodynamic and Organic Classic:

A classic treatise on organic agriculture techniques from 1882. A wonderful summary of techniques that would come to be known as biodynamics.

About the Author Robert Henry Elliot, (1837 1914), was an early British coffee planter in Mysore, India, and author of books upon plantation life in Mysore, and on farming in Scotland
