Excellent and Timeless GuideBy Mr. SchnoodleDon't let the 1978 publishing date influence anything. This is an awesome builders guide and gardeners companion. Actual plan for building all sorts of greenhouses, cold frames and solar structures to suit a variety of needs. A great addition to my library. Now I need a good carpenter and builder!0 of 0 people found the following review helpful. Some Good Information But You Have to Work for ItBy C J PetesA lot of dense information, diverse options, but a little dated and hard to get through.
